LABOR DOULA  
POSTPARTUM DOULA

## ABOUT ME

I love spending time with my husband, son and daughter and our two dogs. Hiking, traveling, skiing, watching my kids play sports and singing are some of the ways I like to spend my free time.

## WHAT MAKES YOU A GREAT CARE PROVIDER?

I am very flexible and willing to adjust to the clients needs at a moments notice. I am compassionate and understand the things that a new mom may be going through or will experience as she enters this journey of motherhood. I also love to just listen because sometime that is what people need the most, just someone to hear them out.

## WHAT DO YOU ENJOY ABOUT THIS WORK?

I love working with babies and children and women, especially new moms and moms to be. Being a mom has been the greatest joy of my life and I want to help other women be able to experience the same. One of the greatest satisfactions I get from this work is to witness the weights being lifted from the mother and family as I assist them on their journey.

## WHAT SETS YOU APART FROM OTHERS?

My experience through being a mother of 2 children, multiple years of experience in childcare and teaching children coupled with my degree in Sociology. I am a care-giver and nurturer at heart.
