ABOUT ME

I love spending time with my son, my family, and friends. Whether it be game night, watch movies, dinner, or outdoors.

WHAT MAKES YOU A GREAT CARE PROVIDER?

I have been a medical assistant for 10 years, I worked in a family practice for 3.5 years and in an OB/GYN office for almost 3 years now. I grew up with a very involved and caring family that taught me a lot to care for others.

WHAT DO YOU ENJOY ABOUT THIS WORK?

I enjoy being able to help others experience and embrace this new beginning of having a baby and see their family grow.

WHAT SETS YOU APART FROM OTHERS?

I have a great support system being a single mother. Honestly can't consider myself a "single parent" with the family I have. I've never struggled with him so I'd love to help someone else not struggle if I am able to.
