

LORI ROBERTS

LABOR DOULA:
POSTPARTUM DOULA

ABOUT ME

We travel as a family, go camping, boating, plan cookouts with family and friends, watch movies, catch up on sleep, sew, write, garden continue educating myself with whats new in pregnancy and labor, connect with others in the Doula world.

WHAT MAKES YOU A GREAT CARE PROVIDER?

I feel that I take the time to really get to know someone and what they are looking for in a Doula, by asking questions to clarify task and information. Easy to talk to, laid back, go with the flow kinda girl. Something changes thats ok will do what needs to be done, no worries at all.

WHAT DO YOU ENJOY ABOUT THIS WORK?

Supporting and caring for families is the key to this work because everyone has a role whether new or old. Doula work is so close to my heart and has been a passion for a long time and seeing families get what they want out of this journey is my biggest satisfaction.

WHAT SETS YOU APART FROM OTHERS?

I've been doing Doula working for awhile now and have worked with several families in different situations. I have had the honor to work with teen mom's to help guide them and their families, new parents, and parents that this is not their first rodeo but want that experience of having the extra support.
